CREATE BEYOND CONVENTION

Slimfocus

Stripping things back to the essential

Revolutionary in its streamlined simplicity, the Slimfocus is the distillation of a stove and a fireplace. Its minimalist and ergonomic design, compact size (33 cm in diameter), and exceptional performance single it out in the Focus range.

Available as a central, wall or corner model, it blends harmoniously into any space. The Slimfocus is compliant with EU Ecodesign regulations and can be supplied with a conventional or a balanced flue.

Versions available

- Suspended Slimfocus, fixed or pivoting, conventional or balanced flue
- Free-standing Slimfocus on a fixed base, conventional or balanced flue
- Wall-mounted Slimfocus

Balanced-flue Slimfocus

Designed for low-energy homes, the balanced-flue Slimfocus draws its air from outside through the flue. This ensures optimal combustion without disrupting the controlled mechanical ventilation (CMV) system.

The first suspended wood-burning fireplace with sealed combustion that is independent of air in the room, it meets the requirements of the most energy-efficient buildings. Its balanced-flue system avoids the need for holes in the floor or wall to supply air.

- 32.4 cm diameter

	CONVENTIONAL FLUE	BALANCED FLUE	
	WOOD	WOOD	GAS
Suspended Slimfocus	The suspended hearth can rotate up to 360° Nominal heat output: 4.5 kW Efficiency: 82% CO output: 0.1% Particle emission: 30 mg/Nm ³		
Free-standing Slimfocus on a base			▪ Natural gas Maximum heat output: 7 kW Maximum consumption: 0.723 m³/h ▪ Propane Maximum heat output: 4.1 kW Maximum consumption: 0.144 m³/h
Wall-mounted	Nominal heat output: 4.5 kW Efficiency: 82% CO output: 0.1% Particle emission: 30 mg/Nm ³		

- **Suspended or on a base Slimfocus:** hearthr 96 kg - steel flue 35 kg/m
- **Suspended Slimfocus pivoting:** hearthr 121 kg - steel flue 35 kg/m
- **Slimfocus on a fixed base (gas):** hearthr 107 kg - steel flue 35 kg/m
- **Wall-mounted Slimfocus:** hearthr 89 kg
